## **DEFENDANTS' NOTICE OF TRANSFER OUT OF BRISTOL**

Respondents-Defendants hereby provide the Court and opposing counsel with notice that **ABEL PROMOTOR-DOMINGUEZ** (for removal to Mexico) and **JAVIER ERNESTO LOPEZ SALAZAR** (for removal to El Salvador) will be transferred out of the Bristol County House of Corrections to facilitate their removal from the United States no sooner than 8:00 a.m. on Monday, June 22, 2020. Both have been tested for COVID-19 using an FDA-approved RT-PCR test and received negative results. With that transfer, the number of immigration detainees remaining at Bristol County House of Corrections is believed to be 64.

Respectfully submitted,

ANDREW E. LELLING,
United States Attorney

<sup>&</sup>lt;sup>1</sup> FDA has approved a number of vendors' tests on an interim basis pursuant to what it calls an Emergency Use Authorization or "EUA." Upon information and belief, this is a fast-track review process that does not lead to a complete approval, but instead a temporary emergency approval in light of the pandemic. *See, e.g.*, https://www.fda.gov/emergency-preparedness-and-response/mcm-legal-regulatory-and-policy-framework/emergency-use-authorization (accessed 5/28/20). Defendants understand the Court's order to include EUA-approved tests as acceptable.
